

THE STORY

Five students named Larry, Laura, Luther, Lenny and Linda received their report cards. The grading scale used was, from highest to lowest, A, B, C, D and F. Based on the clues, figure out the grades each child received in four important subjects.

THE CLUES

1. Laura did not receive the highest math grade but it was higher than Larry's math grade. Larry's math grade was higher than Lenny's math grade, but Lenny did not receive an "F" and, by the way, Linda's math grade was higher than Luther's math grade.
2. Larry and Laura both got worse grades in history than they received in math, but both Luther and Lenny received better grades in history than they received in math. However, Linda's history grade was the best, and Laura did better in history than either Larry or Luther.
3. Larry received a higher English grade than he received in math, and Lenny's English grade was worse than his history grade but, of course, Lenny's English grade was higher than Linda's English grade.
4. Lenny's English grade was lower than Laura's history grade, but Luther's English grade was higher than Larry's English grade.
5. Larry, Luther and Linda received the highest science grades, but Laura's science grade was higher than Lenny's science grade, and Luther's science grade was lower than Larry's science grade.
6. And by now, everyone knows that Linda's science grade was higher than Larry's science grade.

| Larry | Laura | Luther | Lenny | Linda |
|--------------|--------------|--------------|--------------|--------------|
| A in math | A in math | A in math | A in math | A in math |
| B in math | B in math | B in math | B in math | B in math |
| C in math | C in math | C in math | C in math | C in math |
| D in math | D in math | D in math | D in math | D in math |
| F in math | F in math | F in math | F in math | F in math |
| A in history | A in history | A in history | A in history | A in history |
| B in history | B in history | B in history | B in history | B in history |
| C in history | C in history | C in history | C in history | C in history |
| D in history | D in history | D in history | D in history | D in history |
| F in history | F in history | F in history | F in history | F in history |
| A in English | A in English | A in English | A in English | A in English |
| B in English | B in English | B in English | B in English | B in English |
| C in English | C in English | C in English | C in English | C in English |
| D in English | D in English | D in English | D in English | D in English |
| F in English | F in English | F in English | F in English | F in English |
| A in science | A in science | A in science | A in science | A in science |
| B in science | B in science | B in science | B in science | B in science |
| C in science | C in science | C in science | C in science | C in science |
| D in science | D in science | D in science | D in science | D in science |
| F in science | F in science | F in science | F in science | F in science |
